India is the largest film
producing country in the
world and its output has a

global reach. After years of marginalisation by academics in the Western world, Indian cinemas have moved from the periphery to the centre of the world cinema in a comparatively short space of time. Bringing together contributions from leading scholars in the field, this Handbook looks at the complex reasons for this remarkable journey. Combining a historical and thematic approach, the Handbook discusses how Indian cinemas need to be understood in their historical unfolding as well

as their complex relationships to social, economic, cultural, political, ideological, aesthetic, technical and institutional discourses. The thematic section provides an up-to-date critical narrative on diverse topics such as audience, censorship, film distribution, film industry, diaspora, sexuality, film music and nationalism. The Handbook provides a comprehensive and cutting edge survey of Indian cinemas, discussing Popular, Parallel/New Wave and

Regional cinemas as well as the spectacular rise of Bollywood. It is an invaluable resource for students and academics of South Asian Studies, Film Studies and Cultural Studies.

Pearson Education India
This volume analyses the
process and structure of
ecotaxes in India to bring
forth its rationale,
application and incidence
on emerging
environmental problems
on the backdrop of the
environmental issues
confronted by the Indian
economy. Being at infant
stage in India, the concept

of ecotaxes is plagued
with large empirical
difficulties. This book
provides a holistic
understanding of the
complexities in the design
and implementation of
these fiscal instruments at
the country level. After
elaborating on the theory,
history of its applications,
the book provides an
innovative methodological
exercise. It examines the
adequacy and relevance
of ecotaxation in the
Indian context, along with
ensuring that the
distortions due to the
proposed levy are

minimised. The incidence
of these taxes on the
households, the double
dividend hypothesis and
the effect on
competitiveness of the
producer are a few of the
core themes elaborated
upon in this book. This is
demonstrated through a
linear general equilibrium
framework of
Environmentally extended
Social Accounting Matrix
(E-SAM). The book
provides material for the
researchers and graduate
students on the
methodological structure
of eco-taxes. The

proposed methodological intervention could be utilised by the researchers who wish to analyse the macroeconomic impact of any tax through the framework of Social Accounting Matrix (SAM). Additionally, the process as well as the implications and nuances provided in the book will assist the policy makers to design innovative policies for dealing with environmental issues. The volume also has something for the practitioners by helping

them comprehend various effects of these instruments on different stake holders of the economy and thus will be useful as a policy prescription. The three policy scenarios analysed in this study could be considered by the policymakers while attempting to design these instruments in the Indian context and thus ending the extensive reliance on the age old and grossly ineffective Command and Control (CAC) Policies.

This publication covers the special tax situations of active members of the U.S. Armed Forces. For federal tax purposes, the

U.S. Armed Forces includes commissioned officers, warrant officers, and enlisted personnel in all regular and reserve units under control of the Secretaries of the Defense, Army, Navy, and Air Force. The U.S. Armed Forces also includes the Coast Guard. The Public Health Service and the National Oceanic and Atmospheric Administration can also receive many of the same tax benefits. The U.S. Armed Forces doesn't include the U.S. Merchant Marine or the American

Red Cross. Members serving in an area designated or treated as a combat zone are granted special tax benefits. In the event an area ceases to be a combat zone, the IRS will do its best to notify you. Many of the relief provisions will end at that time.
