Essays on photography and the medium's history and evolving identity. In *Each Wild Idea*, Geoffrey Batchen explores a wide range of photographic subjects, from the timing of the medium's invention to the various implications of cyberculture. Along the way, he reflects on contemporary art photography, the role of the vernacular in photography's history, and the Australianness of Australian photography. The essays all focus on a consideration of specific photographs—from a humble combination of baby photos and bronzed booties to a masterwork by Alfred Stieglitz. Although Batchen views each photograph within the context of broader social and political forces, he also engages its own distinctive formal attributes. In short, he sees photography as something that is simultaneously material and cultural. In an effort to evoke the lived experience of history, he frequently relies on sheer description as the mode of analysis, insisting that we look right at—rather than beyond—the photograph being discussed. A constant theme throughout the book is the question of photography's past, present, and future identity.

Sometimes there's more to family than meets the eye.... Animals of all kinds take center stage in this unique exploration of a very unusual family. An older brother is strong and respected, just like an elephant. A mother is stately and beautiful, but she prefers not to stand out—a tall feat for a giraffe! How are animals like humans, and humans like animals? Readers of all ages will delight in Laurent Moreau's richly rendered, thought-provoking illustrations, and then they will entertain perhaps the most wildly illuminating question of all: What makes you special? Plus, this is the fixed format version, which will look almost identical to the print version. Additionally for devices that support audio, this ebook includes a read-along setting.

From a totally fresh perspective, with unique access to some of the remotest regions and species living beyond the confines of captivity, *Wild Africa* is a contemporary photographic record that takes you into the heart of one of the world's last natural paradises. The result of painstaking expeditions across the continent, Alex Bernasconi's photographic document contains some of the most novel, surprising and spectacular images of Africa and its wildlife. This is an off-road Africa, with moments of true beauty and natural delicacy that shows the full splendour of wildlife at one with the

landscape, whilst preserving its raw immediacy. In the one thousand eight hundred images a week that Bernasconi takes of some of nature's finest and most endangered animals, wildlife photography is embodied at its most honest and creative. *Wild Africa* depicts some of Africa's most voluptuous vistas alongside the world's most treasured wildlife discovered off-guard, at its most powerful and endearing. These are unique images by a photographer motivated to preserve for posterity the most exceptional panoramas of wildlife in its true habitat that we have today. NATIONAL BESTSELLER • In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. Four months later, his decomposed body was found by a moose hunter. This is the unforgettable story of how Christopher Johnson McCandless came to die. "It may be nonfiction, but *Into the Wild* is a mystery of the highest order." —Entertainment Weekly McCandless had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Not long after, he was dead. *Into the Wild* is the mesmerizing, heartbreaking tale of an enigmatic young man who goes missing in the wild and whose story captured the world's attention. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding—and not an ounce of sentimentality. *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.

This book is an examination of the use of the family album in contemporary Spanish culture. Through the analysis of films, narratives, painting, and a photographic exhibition produced from the end of Franco's dictatorship to the present, Kim interrogates how the family album serves as a critical instrument to reflect on the treatment of the past in contemporary Spain, the recuperation of repressed identities, nostalgia for collective memory symptomatic of the cultural discontent with the erosion of a national boundary due to globalization and the increasing claim of diversity, and ethical concerns for immigration. This study explores a broad range of works by canonical as well as less studied writers and artists, including Juan Goytisolo, Carlos Saura, and Marta Balletbo-Coll. Yeon-Soo Kim is Assistant Professor of Spanish at Rutgers University.

This enchanting, humorous history of dinosaurs is told by the last surviving dinosaur on Earth, Tony T-Rex. Tony T-Rex's Family Album is a tongue-in-cheek history of dinosaurs as told by Earth's last surviving dinosaur. Tony pens a no-holds-barred family history, and the stories that surface reveal the defining characteristics of some of the most memorable creatures from the Jurassic and Cretaceous periods. Tony's memoir includes tales about his great-great-great-grandpa "Greedy Guts" Bill, the Brachiosaurus who was known to eat stones to help with indigestion; beak-mouthed Aunt Norni the Sinornithosaurus, the first dinosaur to ever attempt flight; and the black sheep of the family, a Ceratosaurus called Horace "The Horn" who, in a time of great scarcity and hunger, took a bite out of one of his hunting buddies and pursued a cannibalistic lifestyle. Featuring the quirky illustrations of Rob Hodgson, Tony T-Rex's Family Album stars a wild cast of creatures, rendered in a contemporary and colorful style, and a humorous approach to paleontology.

A searing, emotional and inspiring memoir, *The Family Album: Reminiscing About the Past* tells the story of a resilient family living in Russia during some of the country's darkest and most difficult history. With skilful and engaging storytelling, this memoir details the rich history of the time through photos while telling personal stories, such as how the author's own father perished while fighting for his country and how she and her mother survived the Leningrad Blockade. Despite the hardships faced by the family, this book still brims with hope, enthusiasm and patriotism and offers its readers an uplifting lesson in history and the strength of the human spirit.

The most comprehensive collection of photographs and images of Wilde--compiled by his only grandson. Oscar Wilde was one of the first and unquestionably one of the greatest self-publicists who ever lived. With that exceptional streak of modernity that characterized much of his life and work, he understood the power of the image in his campaign to promote the self. As early as his Oxford days, he had himself photographed with his contemporaries in loud checked suits of the latest fashion. The Wilde Album now publishes more of these images of Oscar than have ever been seen together before, as well as later photographs, some previously unpublished, from the family archive, including rare snapshots of Oscar in his last years in Italy; the famous sitting in New York for Napoleon Sarony in fur coat and velvet suit; and the good, the bad, and the vicious caricatures, cartoons, and lithographs. In the accompanying text, Merlin Holland examines Wilde's life as reflected in the photographs and images, paying particular attention to his relationships with friends, family, and lovers, as well as the profound influence of his Irish upbringing. He also investigates the reasons for the adverse opinions his work engendered and the background to the famous legal battles that finally led to imprisonment and exile.
