This book,
based on
extensive
original
research,
examines the
nature of
Catholicism in

the
contemporary
Philippines. It
shows how
Catholicism is
apparently
flourishing,
with good
attendance at
Sunday

Masses, impressive religious processions and flourishing charismatic groups, and with interventions by the Catholic hierarchy in national and local politics. However, focusing in particular on the beliefs and practices of young people, the book shows that young people are often adopting a different, more individualised approach to Catholicism, which is

frequently out of step with the official position. It considers the features of this: a more personal and experiential relationship with God; a new approach to morality, in which right living is seen as more important than right believing; and a critical view of what is seen as the Catholic hierarchy's misguidedness. The book argues that this reinterpreting of religion by young people has the

potential to alter fundamentally the nature of Catholicism in the Philippines, but that, nevertheless, young people's new approach involves a solid, enduring commitment and a strong view of their own Catholic, religious identity. The Filipino Migration Experience University of Chicago Press Stephen M. Cherry draws upon a rich set of ethnographic and survey data, collected

over a six-year period, to explore the roles that Catholicism and family play in shaping Filipino American community life. From the planning and construction of community centers, to volunteering at health fairs or protesting against abortion, this book illustrates the powerful ways these forces structure and animate not only how first-generation Filipino Americans think and feel

about their community, but how they are compelled to engage it over issues deemed important to the sanctity of the family. Revealing more than intimate accounts of Filipino American lives, Cherry offers a glimpse of the often hidden but vital relationship between religion and community in the lives of new immigrants, and allows speculation on the broader impact of

Filipino immigration on the nation. The Filipino American community is the second-largest immigrant community in the United States, and the Philippines is the second-largest source of Catholic immigration to this country. This groundbreaking study outlines how first-generation Filipino Americans have the potential to reshape American Catholicism and are already

having an impact on American civic life through the engagement of their faith. Au Pairs' Lives in Global Context Atacama Books India is a country having strong cultural foundation and high moral values. Marriage (matrimonial relationship or wedlock) in India has secured a sacred place and it is a general conception that marriage is a heavenly creature

which is celebrated on earth. In India, marriage is a sacred bonding between two heterogeneous persons by which kinship is created and mutual rights and obligations are generated by this relationship. It is also a general conception that cohabitation between man and woman can only be done through bonding of marriage and for cohabitation, no other relationships

is allowed between them. Marriage is a divine concept which has been practiced since ages. Interpersonal relationships which are generally intimate and sexual in nature are acknowledged by the marriage. It is also a social obligation to keep a man and woman together and since a woman is considered to be the better half of man, so, many of the rituals are considered to

be incomplete unless it is to be performed by both husband and wife together. Hence in addition to be a social obligation, it is very much customary in nature also and necessary for the strengthening and progress of society. Apart from imposing family obligations, marriage also provides legal shield to the children and it is a public declaration regarding the legitimacy of the children.

Have you ever wondered what life is like for a migrant domestic worker in Singapore? In *Our Homes, Our Stories* women that work in Singapore as live-in domestic workers share their real-life stories. They write about rogue agents, abusive employers, complicated relationships, and that one thing they all suffer from

the most: missing their families back home - in Indonesia, the Philippines, Myanmar and India. The women write about sacrifice, broken trust, exploitation, lack of food, salary deductions and constant scolding; but also about supportive employers, the love they have for the families they take care of, or how they use their time in Singapore as a stepping-stone to realise their dreams for the

future. "It is my hope that these stories will prompt us, in this country, to do better as employers and to be better as humans."

Audrey Chin - Singaporean writer "I hope the readers will find my story inspirational and maybe even a little bit enlightening."

Jo Ann Dumlao - Domestic Worker and writer "A home is where you find unconditional love, compassion, support,

where you forget your pain and fears; a safe haven where you get the courage to smile at life again." Sai - Domestic Worker and writer

"Hopefully our book will show that we are not only workers, but we are human beings." Novia Arluma - Domestic Worker and writer All proceeds of this book go to HOME, a Singaporean charity that has supported and empowered migrant

workers since 2004. All the writers in Our Homes, Our Stories are part of the HOME community, either as volunteers on their one day off, or as residents at HOME shelter for ill-treated domestic workers.

The rates are on the decline worldwide. But adolescent pregnancies still occur, placing millions of girls each year at risk for medical complications and social isolation and their babies for severe health problems—especially when prenatal

care is inadequate or nonexistent. But as the opportunity for young women and girls increases around the world, adolescent pregnancy will continue to decline. Featuring reports from countries across the developed and developing worlds, the International Handbook of Adolescent Pregnancy analyzes the scope of the problem and the diversity of social and professional responses. Its

biological/ecological perspective identifies factors influencing childhood pregnancy, as well as outcomes, challenges and needs of very young mothers as they differ across nations and regions. Salient comparisons are made as cultural contexts and community support vary widely and attention is paid to issues such as child marriage, LGBT concerns and the impact of

religion and politics on health care, particularly access to contraception, abortion and other services. This global coverage heightens the understanding of readers involved in care, education and prevention programs and otherwise concerned with the psychosocial development, reproductive health and general well-being of girls. Included in the Handbook: Biological influences of adolescent

pregnancy. Adolescent maternal health and childbearing. Adolescent pregnancy and mental health. International perspectives on adolescent fathers. Adolescent pregnancy as a feminist issue. Adolescent pregnancy as a social problem. Plus viewpoints from more than thirty countries. As a unique source of up-to-date findings and clear-headed analysis, the International Handbook of

Adolescent Pregnancy is a go-to reference for practitioners and researchers in maternal and child health, pediatrics, adolescent medicine and global health. The countries of China, Taiwan, Singapore, Japan, Korea, Malaysia, Philippines,

Indonesia, and Thailand are brought together for the first time in an integrated and systematic work outlining each country's cultural themes, cultural practices, and preferred conflict resolution mechanisms.

The new "ADR" processes and centuries-old mediation and conciliation systems used in these countries are compared with the evolving mediation and ADR systems,

including facilitation in North America and the West. This comprehensive study analyzes the cultural "themes" commonly found in these countries' religious conflicts; and presents over 30 different stories, case studies, and conflict resolution scenarios from the region. Culture, Conflict, and Mediation in the Asian Pacific looks beyond traditional regional boundaries to

Filipino American Lives Rutgers University Press
The third edition of the foundational volume in Asian American studies *Who are Asian Americans?* Moving beyond popular stereotypes of the “model minority” or “forever foreigner,” most Americans know surprisingly

little of the nation's fastest growing minority population. Since the 1960s, when different Asian immigrant groups came together under the "Asian American" umbrella, they have tirelessly carved out their presence in the labor market, education, politics, and pop culture. Many times, they have done so in the face of racism, discrimination, sexism, homophobia, and socioeconomic disadvantage. Today, contemporary Asian America has emerged as an incredibly diverse population, with each segment of the community facing its unique challenges. When Contemporary Asian America was first published in 2000, it exposed its readers to the formation and development of Asian American studies as an academic field of study, from its inception as part of the ethnic consciousness movement of the 1960s to the systematic inquiry into more contemporary theoretical and practical issues facing Asian America at the century's end. It was the first volume to integrate a broad range of interdisciplinary research and approaches from a social science perspective to assess the effects of immigration, community development,

and socialization on Asian American communities. This updated third edition discusses the impact of September 11 on Asian American identity and citizenship; the continued influence of globalization on past and present waves of immigration; and the intersection of race, gender, sexuality, and class on the experiences of Asian immigrants and their children. The volume also

provides study questions and recommended supplementary readings and documentary films. This critical text offers a broad overview of Asian American studies and the current state of Asian America. **(Un)tying the Knot** AuthorHouse The Filipino Migration Experience introduces a new dimension to the usual depiction of migrants as disenfranchised workers or marginal

ethnic groups. Mina Roces suggests alternative ways of conceptualizing Filipino migrants as critics of the family and cultural constructions of sexuality, as consumers and investors, as philanthropists, as activists, and, as historians. They have been able to transform fundamental social institutions and well-entrenched traditional norms, as well as alter the business,

economic and cultural landscapes of both the homeland and the host countries to which they have migrated. Mina Roces tells the story of the Filipino migration experience from the perspective of the migrants themselves, tapping into hitherto underused primary sources from the "migrant archives" and more than 70 interviews. Bringing the fields of Filipino migration studies and Filipina/o/x American studies together, this book analyzes some of the areas where Filipino migrants have forever changed the status quo. *Genealogy* Presses universitaires de Louvain DISCOVER THE FOUNDATIONS AND NUANCES OF TREATING THE MENTAL HEALTH OF FILIPINO AMERICANS Filipino American Psychology: A Handbook of Theory, Research, and Clinical Practice, 2nd Edition compiles the latest and best information about the psychology of Filipino Americans into a single, indispensable volume. Distinguished and celebrated professor and author, Dr. Kevin Nadal, explains in thorough detail the mental health issues facing many Filipino Americans today. It also covers effective techniques and strategies

for working with the Filipino American population today. *Filipino American Psychology* uses reader-friendly language, along with numerous vignettes and case studies, to make accessible its in-depth treatment of the subject. The book covers a wide range of topics necessary to understand how to provide mental health treatment to Filipino Americans,

including: Filipino and Filipino American Cultural Values Overcoming the Model Minority: Contemporary experiences of Filipino Americans Intersections of Gender and Sexual Orientation Multiracial and Multiethnic Filipino Americans Mental Health and Psychotherapy in the Filipino American community The book also includes a brand-new section on the historical

traumas that still reverberate through the Filipino American community. Perfect for mental health practitioners and students who are likely to encounter this large cultural and ethnic group, *Filipino American Psychology* serves as a foundational volume in any complete mental health library. **Migration and Domestic Work** Routledge Doris was an IFYE to the
