 Clearly

 'Responsive

 - as opposed  
 to the  
 alienating  
 environments  
 often imposed  
 today. By  
 means of  
 sketches and  
 diagrams, it  
 shows how

they may be designed in to places or buildings. This is a practical book about architecture and urban design. It is most concerned with the areas of design which most frequently go wrong and impresses the idea that ideals alone are not enough. Ideals must be linked through appropriate design ideas to the fabric of the built environemnt itself. This book is a practical attempt to

show how this can be done. *Scripts* Phaidon Press An extraordinary look at Karl Lagerfeld's most iconic runway shows for Chanel, which have transformed the way we experience fashion. Lagerfeld showcases in an oversize format ten years of Chanel's most influential fashion shows shot by English photographer Simon Procter. Over the past decade, fashion shows have evolved

into monumental productions, requiring a level of sophistication and creativity on par with the clothes they present. This has been most evident in Paris at the now legendary runways of Karl Lagerfeld for Chanel. To capture the energy of the events, Procter visually re-creates the epic sets-- from a luscious forest scene to a rocket launch--combining multiple photographs to illustrate in

a single image the many perspectives of the intense but fleeting spectacle. The resulting artworks are held in collections worldwide and published in this book for the first time alongside never-before-seen candid images of Lagerfeld and the models preparing backstage. Lagerfeld offers the reader an unparalleled look into the wide-ranging creativity of one of history's most respected and

iconic designers, making this an invaluable resource for all lovers of fashion and especially admirers of Chanel and Lagerfeld's incomparable legacy.

Walter Foster Library  
An exploration of the timeless beauty of Indian design through 200 classic objects. The Indian subcontinent is an amalgamation of peoples, cultures, languages and philosophies.

Throughout history Indian culture has been subject to myriad different influences, from the Mughal empire to the British Raj to the now globalized nation in transition. Similar to 'Wa: Essence of Japanese Design', this book will trace continuity through the history of Indian design from antiquity to the present day. The book explores the elements that make Indian design so special,

including the varied manufacturing and decorating techniques of the country's incredibly skilled craftsmen, highly specialized object designs that have been refined over centuries, and ongoing responses to nature, technology, and necessity. The objects were chosen for their enduring quality and beauty, and their integral connection to Indian culture. Rather than

following a chronological order or concentrating on the (often anonymous) designers, this book separates the objects into abstract categories anchored by Hindi words chosen to illuminate how each object fits into the lives of Indians. Do It Yourself Phaidon Press Steven Brooke, whose dazzling photography of Miami's Art Deco District once helped spur the area's preservation,

now captures the incredible architectural restoration of this glamorous international playground. During the 1930s, Miami Beach emerged as an epicenter of Art Deco architecture. Against the azure sky gleamed buildings that boasted voluptuous curves, nautical elements, Jazz Age ornamentation, and seductive neon. After the area fell into decline in the 1970s and '80s, Steven

Brooke and others successfully campaigned to protect the Art Deco District's architectural treasures from the wrecking ball. Now, with the district's buildings finally restored to their eye-popping glory, Brooke offers Miami- and Art Deco-lovers the most up-to-date celebration of the inimitable architecture that has made the city a style magnet for artists, designers, and travelers from around the

globe.

The colors of Mexico:  
 Diverse interiors from Costa Careyes to the Yucatan Peninsula  
 Barbara and René Stoeltie, the dynamic writer and photographer duo, have struck gold again--this time with a truly breathtaking look at Mexico's most remarkable abodes. The Stoelties have traveled far and wide, from Costa Careyes to the Yucatan Peninsula, seeking out homes to surprise,

delight, and inspire you. The contrast between Constructivist architect Luis Barragán's home, a restored 16th century hacienda, and traditional Mayan thatched-roof dwellings is telling of the vibrant palette of textures and hues to be found with the pages of this book. This diverse selection of villas, casitas, haciendas, cabanas, and palapas paints a lively and colorful picture of Mexican style.

\* The first comprehensive monograph on Ingrid, one of the most sought after designers of the end of the 20th century \*  
Donat creates exceptional pieces of sculpted furniture, in the great tradition of Giacometti  
Ingrid Donat creates sculpted furniture, most often in bronze. Taking a painterly

approach to this weighty medium, Donat draws on diverse decorative influences. Art Deco, tribal tattooing, the work of Gustav Klimt and Armand-Albert Rateau have all inspired the intricate patterning of her work. Elements of Donat's practice remain consistent. Her creative process begins with a sheet of wax, which she inscribes, carves and shapes to form the

"skin" of her work. This structure is then applied to her designs. She herself engraves the bronzes, paints the upholstery and treats the wood. Her pieces have been cast at the same bronze foundry, the Blanchet-Landowski, for over 20 years, as the stamp they bear goes to prove. Though often large and heavy, there is a delicacy to Donat's work. Almost like armor, she uses

bronze to shield an idea of the fragile. In addition to her skilled craft, Donat is also an accomplished engineer. "Commode 7 Engrenages" incorporates a column of cogs into its sides. They begin to whirl when the chest's drawers are opened or closed. The intrinsic mechanism animates the piece with movement and sound. Born in Paris into a family of artists, Donat was raised in

Sweden. In 1975 she returned to her birthplace to explore her passion for sculpture at the Ecole des Beaux Arts. During these years she began to apply her sculptural talent to functional pieces, strongly encouraged by her mentor Diego Giacometti. Only in 1998 did Donat begin to exhibit publicly a body of work she had been creating for over twenty years.

 Annotation. Trish has always been fascinated by miniature art and for years has had a yen to try and embroider smaller pieces. There is something so endearing about little paintings with all the detail and form of a larger piece, not to mention the fact that they are much quicker to stitch! Here she has compiled fresh and appealing designs that

depict the pretty, romantic illustrations typical of the Victorian and post-Victorian eras. Each project is accompanied by a detailed thread diagram which shows exactly which colour should be used and where. The small size of the designs allows for great flexibility in their final use such as group framing, making up into cushions, book covers, quilt squares, needle cases,

box lids, tote bags, pockets on clothing and so on. Dieter Rams Phaidon Press In search of the perfect pattern for a knitted present? This mini-reference features 50 year-round gift ideas.
