COLON ALYSON

Air Force Manual Ballantine Books

'This story is the result of long hours of delving into the pasts of my nanny and my ma. I hope it will give some insight into the experiences of one family of colour in Ireland today. Most of all, I just want to start a conversation, because once people come together to talk, the possibilities are endless.' Jade Jordan
 Jade Jordan's grandmother, Kathleen, left Ireland for England in the late 1950s to train as a nurse. While there, she fell in love and married a Jamaican man. They had two sons and a daughter, Dominique, and settled in London's diverse Walthamstow. But when Kathleen decided to return home to Dublin, she discovered that the colour of her children's skin set them apart - and that their new lives would be very different to the ones they had known. Here, in this honest, warm-hearted and often humorous multi-generational memoir, Kathleen, Dominique and her daughter Jade each tell their story. From Kathleen's

determination to raise her children with love and security in inner-city Dublin, to Dominique's struggle to figure out how she fit in as a young Black teenager, to Jade's own experiences as a Black woman growing up in twenty-first-century Ireland, Nanny, Ma & Me is a story about race in a country of contradictions. At its heart lies a tale of the power of community, love and three women for whom family is everything.

Modern Hospital Cengage Learning

The International Healthcare Professionals' Handbook is a compendium of advice, information and support for new international recruits embarking on careers in the UK - from those who have succeeded before. Written by Annesha Archyangelio, a Jamaican-born nurse who has worked for many years in the NHS, the book will help you navigate UK healthcare systems and processes with ease. It's packed full of handy guidance, covering everything from terminology to cultural competency and how to adapt to new ways of working. This invaluable book will not only help you settle into your role in the UK but provides strategies for thriving in your career into the future. - Offers support all the way, from the international

recruitment process through to successful completion of exams and beyond - Focuses on staff development and progression in the workplace - Presents a guide to the structure of the NHS and other health and social care services - Gives overviews of the NMC, RCN and other key bodies - Covers communication challenges and cultural competency - Includes measurements, abbreviations and a dictionary of key terms and colloquialisms indispensable for international recruits

From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review)

"The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

Identifies and describes specific government assistance opportunities such as loans, grants, counseling, and procurement contracts available under many agencies and programs.

Gold Coast Gazette Elsevier Health Sciences

Disorders of the Neonatal Airway serves as a comprehensive, multidisciplinary resource for all practitioners who care for

neonates with airway disorders. With the evolution of advances in neonatology and neonatal airway care over the past three decades, the survival rate and life expectancy of premature newborns have dramatically increased to well over 50% in 24-25 week gestation infants. Unfortunately, survival with long-term intubation has brought a corresponding increase in acquired airway disorders needing collaborative high level neonatal and otolaryngological care. Additionally, with the advent of fetal therapy, congenital airway disorders now make up a substantial number of neonates with complex airway disorders. Because of this fact, there has been increased focus on the multidisciplinary evaluation and management of neonatal airway disorders. The book is organized into three sections: the first focuses on Malformations and Deformations, the second focuses on Assessment, Evaluation, and Treatment, and the third discusses Education, Simulation, and Quality. As one of the only comprehensive resources on the topic, *Disorders of the Neonatal Airway* focuses on a multidisciplinary approach to the neonatal airway. This unique approach makes this reference a must read for practitioners from many disciplines. The book is organized into three sections: the first focuses on Malformations and Deformations, the second focuses on Assessment, Evaluation, and Treatment, and the third discusses Education, Simulation, and Quality.
