I saved him. I gave up everything to protect him. Although now I barely have anything left to protect myself. But I don't regret what I did. I love him even if I shouldn't. He'll never be mine. He'll never care about me. And yet, he'll play the hero. He'll save me just like I saved him. But the next deadly game starts and the look in his eyes is what terrifies me. It's like he's tempted... Tempted to want me. Tempted to love me. Tempted to kill me. Will I survive long enough to

find out which of his motivations is ultimately going to win? This is book 3 in Retribution Games Series.

In 1790, America was in enormous debt, having depleted what little money and supplies the country had during its victorious fight for independence. Before the nation's greatest asset, the land west of the Ohio River, could be sold it had to be measured out and mapped. And before that could be done, a uniform set of measurements had to be chosen for the new republic out of the morass of roughly 100,000 different units that were in use in daily life. Measuring America tells the fascinating story of how we

ultimately gained the American Customary System—the last traditional system in the world—and how one man's surveying chain indelibly imprinted its dimensions on the land, on cities, and on our culture from coast to coast.
