Over the past few decades, the book series *Linguistische Arbeiten* [Linguistic Studies], comprising over 500 volumes, has made a significant contribution to the development of

linguistic theory both in Germany and internationally. The series will continue to deliver new impulses for research and maintain the central insight of linguistics that progress can only be made in acquiring new knowledge about human languages both synchronically and diachronically by closely combining empirical and theoretical analyses. To this end, we invite submission of high-quality linguistic studies from all the central areas of general linguistics and the linguistics of individual languages which address topical questions, discuss new data and advance the development of linguistic theory.

A witch and a non-magical girl get stuck in an endless cycle of meet-cutes and breakups in this heart-stopping romantic young adult fantasy. "A seamless, mind-bending exploration of love and identity that manages to completely re-invent the time-loop story....You'll never read a book quite like this again." —Mark Oshiro, #1 New York Times bestselling author of *Into the Light* Luna is a powerful witch. Known for her skills and feared for her temper, she's set to preserve her family's legacy by becoming the head of Boston's Witch Council—a job she does not want. Aoife is a non-magical girl. Raised under the lens of her influencer family, she's grown up in the public eye. Now

she yearns for privacy—but knows her parents won't oblige. Just when they are at their lowest, Aoife and Luna find each other and start dating. As decreed by magic law, Luna casts a spell that will erase Aoife's memories of their history together if they ever break up. But when Aoife and Luna end things, it's both of them who forget . . . that is, until they meet again, fall for each other, and recover all the memories of their last attempt at dating. So begins the story of two star-crossed lovers who keep finding their way into each other's orbits, even as the universe pulls them apart. When they set out to break the cycle, will they be strangers forever or together at last? "A whirlwind of

whimsical romance and examinations of autonomy and familial duty." —Jas

Daire's grandfather left her more than a house in Ireland. He left her a passport to her heritage, how to make happiness with harp strings and a pocketful of emeralds. He might have also left her the one man who could teach her what it meant to be Irish.

A major reevaluation of relationships among Blacks, Jews, and Irish in the years between the Irish Famine and the end of World War II, *The Colors of Zion* argues that the cooperative efforts and sympathies among these three groups, each persecuted and subjugated in its own way, was much greater than often acknowledged today. For the Black, Jewish, and Irish writers, poets,

musicians, and politicians at the center of this transatlantic study, a sense of shared wrongs inspired repeated outpourings of sympathy. If what they have to say now surprises us, it is because our current constructions of interracial and ethnic relations have overemphasized conflict and division. As George Bornstein says in his Introduction, he chooses "to let the principals speak for themselves." While acknowledging past conflicts and tensions, Bornstein insists on recovering the "lost connections" through which these groups frequently defined their plights as well as their aspirations. In doing so, he examines a wide range of materials, including

immigration laws, lynching, hostile race theorists, Nazis and Klansmen, discriminatory university practices, and Jewish publishing houses alongside popular plays like *The Melting Pot* and *Abie's Irish Rose*, canonical novels like *Ulysses* and *Daniel Deronda*, music from slave spirituals to jazz, poetry, and early films such as *The Jazz Singer*. The models of brotherhood that extended beyond ethnocentrism a century ago, the author argues, might do so once again today, if only we bear them in mind. He also urges us to move beyond arbitrary and invidious categories of race and ethnicity.

Queen of the Night helps readers understand the role and power of the moon in the ancient religions, folklore, and mythology of Ireland and the British isles and then discover how to tap that power in their daily lives. *Queen of the Night* is a journey into the world of Celtic cosmology, shamanism, and sacred animals, as well as Celtic language, art, and culture, to discover the power and centrality of the moon. Since the earliest times, from stone circles and passage

graves to the rites and customs of Druids, the moon has been the symbol of the Goddess and has played a crucial role in worship and celebration. In 13 chapters representing the moon's monthly and annual cycles, NicMhacha tells the story of Celtic moon mythology, as well as touching upon Greek, Hindu, and Norse traditions. Each chapter sets forth the role of the moon in Celtic tradition and culture and includes poetry, quotes, or prayers honoring the moon. At the end of each chapter, she offers meditations, ceremonies, and exercises to help readers connect with the moon and apply its power to their lives. From the world of fairies to bards,

seekers, and shamans; from the moon's role in the secret meetings of women spinners to the role of sacred animals and mythic beings, Queen of the Night is a lively, informative, and transformative book for anyone who wants to understand and experience the power of the moon.

The Loony-Bin Trip

With the social change brought on by the Great Migration of African Americans into the urban northeast after the Great War came the surge of a biracial sensibility that made America different from other Western nations. How white and black people thought about race and how both groups understood and attempted to define and control the demographic transformation are the subjects of this new book by a rising star in American history. An elegant account of the roiling environment that witnessed the shift from the multiplicity of white races to the arrival of biracialism, this book focuses on four representative spokesmen for the transforming age:

Daniel Cohalan, the Irish-American nationalist, Tammany Hall man, and ruthless politician; Madison Grant, the patrician eugenicist and noisy white supremacist; W. E. B. Du Bois, the African-American social scientist and advocate of social justice; and Jean Toomer, the American pluralist and novelist of the interior life. Race, politics, and classification were their intense and troubling preoccupations in a world they did not create, would not accept, and tried to change.

Stories and personal narratives are powerful tools for engaging in self-reflection and application of critical theory in higher educational contexts.

This edited text centers "name stories" as a vehicle to promote readers' understanding of social identity, oppression, and intersectionality in a variety of educational contexts from residence halls and

classrooms to faculty development workshops and executive leadership board rooms. The contributors in this volume reveal how names may serve as entry points through which to foster learning and facilitate conversations about identity, power, privilege, and systems of oppression. Through an intersectional perspective, chapter authors reveal interlocking systems of oppression in education while also providing recommendations, lessons learned, reflection questions, and calls to action for those working to transform and advance equity-minded campus climates. This unique volume is for educators at colleges and

universities doing equity work, seeking ways to initiate, facilitate, and maintain rich conversations about identity.

Queen of the Night

Gryphon House, Inc.

When the revolt of a people that feels itself oppressed is

successful, it is written down in history as a revolution—as in this country in 1776. When it fails, it is called an insurrection—as in Ireland in 1916. Those who conquer usually write the history of the conquest. For that reason the story of the "Dublin Insurrection" may become legendary in Ireland, where it passes from mouth to mouth, and may remain quite unknown throughout the rest of the world, unless those of us who were in it and yet escaped execution, imprisonment, or deportation, write truthfully of our personal part in the rising of Easter week. It was in my own right name that I applied for a passport to come to this country. When it was granted me after a

long delay, I wondered if, after all, the English authorities had known nothing of my activity in the rising. But that can hardly be, for it was a Government detective who came to arrest me at the hospital in Dublin where I was recovering from wounds received during the fighting. I was not allowed to stay in prison; the surgeon in charge of the hospital insisted to the authorities at Dublin Castle that I was in no condition to be locked up in a cell. But later they might have arrested me, for I was in Dublin twice—once in August and again in November. On both occasions detectives were following me. I have heard that three days after I openly left my home in Glasgow to come to this country,

inquiries were made for me of my family and friends. That there is some risk in publishing my story, I am well aware; but that is the sort of risk which we who love Ireland must run, if we are to bring to the knowledge of the world the truth of that heroic attempt last spring to free Ireland and win for her a place as a small but independent nation, entitled to the respect of all who love liberty. It is to win that respect, even though we failed to gain our freedom, that I tell what I know of the rising...

Over the past six

decades, the field of teaching modern foreign languages to young learners has come a long way, from the early surmises about the advantages of a young start to today's widespread integration of foreign languages into curricula in public and private schools. The chapters in this book bring together internationally renowned researchers who have been vocal in establishing early language teaching and learning as an independent area of research and novice voices who represent a new generation of devoted researchers to present a state-of-the-art volume on the topic. The authors

address key questions about young learner second/foreign language (L2/FL) development, methodological issues when conducting research with young learners, L2/FL teaching pedagogy, language education policy, technology enhanced learning and assessment. Together, the chapters capture the reality of early FL development in the context of a globalized world and will be of great interest to researchers and postgraduate students of SLA and Applied Linguistics, specifically in the field of early language development and teaching languages to young learners.
