In all six of its volumes The Broadview Anthology of British Literature presents British literature in a truly distinctive light. Fully grounded in sound literary and historical scholarship, the anthology takes a fresh approach to many canonical authors, and includes a wide selection of work by lesser-known writers. The anthology also provides wide-ranging coverage of the worldwide connections of British literature, and it pays attention throughout to issues of race, gender, class, and sexual orientation. It includes comprehensive introductions to each period, providing in each case an overview of the historical and cultural as well as the literary background. It features accessible and engaging headnotes for all authors, extensive explanatory annotations, and an unparalleled number of illustrations and contextual materials. Innovative, authoritative and comprehensive, The Broadview Anthology of British Literature has established itself as a leader in the field. The full anthology comprises six bound volumes, together with an extensive website component; the latter has been edited, annotated, and designed according to the same high standards as the bound book component of the anthology, and is accessible by using the passcode obtained with the purchase of one or more of the bound volumes. For those seeking an even more streamlined anthology than the two-volume Concise Edition, The Broadview Anthology of British Literature is now available in a compact single-volume version. The edition features the same high quality of introductions, annotations, contextual materials, and illustrations found in the full anthology, and it complements an ample offering of canonical works with a vibrant selection of less-canonical pieces. The compact single-volume edition also includes a substantial website component, providing for much greater flexibility. An increasing number of works from the full six-volume anthology (or from its website component) are also being made available in stand-alone Broadview Anthology of British

Literature editions that can be bundled with the anthology.

The collection of papers in this special volume discuss issues and challenges that are pertinent in understanding present-day moves and tendencies in the use of languages in the African contexts. The volume's major asset lies in the diversity of topics, the range of languages and the African geographical areas covered. Not only do the contributors come from different nations in Africa but also many of them are established scholars who interact with and interpret the unique situations in their nations on a daily basis.

Routledge English Language Introductions cover core areas of language study and are one-stop resources for students. Assuming no prior knowledge, books in the series offer an accessible overview of the subject, with activities, study questions, sample analyses, commentaries, and key readings – all in the same volume. The innovative and flexible ‘two-dimensional’ structure is built around four sections – introduction, development, exploration, and extension – which offer self-contained stages for study. Each topic can also be read across these sections, enabling the reader to build gradually on the knowledge gained. *Global Englishes, Third Edition*, previously published as *World Englishes*, has been comprehensively revised and updated and provides an introduction to the subject that is both accessible and comprehensive. Key features of this best-selling textbook include: coverage of the major historical,

linguistic, and sociopolitical developments in the English language from the start of the seventeenth century to the present day exploration of the current debates in global Englishes, relating to its uses as mother tongue in the US, UK, Antipodes, and post-colonial language in Africa, South and Southeast Asia, and lingua franca across the rest of the globe, with a new and particularly strong emphasis on China a range of texts, data and examples draw from emails, tweets and newspapers such as The New York Times, China Daily and The Straits Times readings from key scholars including Alastair Pennycook, Henry G. Widdowson and Lesley Milroy activities that engage the reader by inviting them to draw on their own experience and consider their orientation to the particular topic in hand. *Global Englishes, Third Edition* provides a dynamic and engaging introduction to this fascinating topic and is essential reading for all students studying global Englishes, English as a lingua franca, and the spread of English in the world today.

This research collection presents a critical review of the materials used for learning English around the world. The first section includes a discussion of materials for specific learners and purposes, such as young learners, self-study, academic writing and general proficiency. The second section presents a detailed study of the materials used in Europe, Asia, North America, South America, Africa and Australia, and critically evaluates their effectiveness in the teaching of English to speakers of other languages. Taking both the teacher's and the learner's needs into consideration, the book makes a positive contribution to the future of research in materials development, and has practical applications. This comprehensive, critical analysis of materials in use around the world will be useful for academics researching materials development and applied linguistics and for students on post-graduate applied linguistics and ELT courses.

The two-volume Broadview Anthology of British Literature: Concise Edition provides an attractive alternative to the full six-volume anthology. Though much more compact, the Concise

Edition nevertheless provides substantial choice, offering both a strong selection of canonical authors and a sampling of lesser-known works. With an unparalleled selection of illustrations and of contextual materials, accessible and engaging introductions, and full explanatory annotations, these volumes provide concise yet extraordinarily wide-ranging coverage for British Literature survey courses. New to this volume are Samuel Beckett's *Endgame* and Robert Louis Stevenson's *Strange Case of Dr. Jekyll and Mr. Hyde*; new authors include Dorothy Wordsworth, John Clare, Tomson Highway, Derek Walcott, and Chimamanda Ngozi Adichie. The third edition now also offers substantially expanded representation of Irish, Scottish, and Welsh literatures, as well as contextual materials on Gothic literature, Modernism, and World War II. Material that no longer appears in the bound book may in most cases be found on the companion website; many larger works are also available in separate volumes that may at the instructor's request be bundled together with the anthology at no extra cost to the student. Features New to the Third Edition — New longer texts including Dickens's performance reading of "David Copperfield," Gaskell's *The Manchester Marriage*, Stevenson's *Strange Case of Dr. Jekyll and Mr. Hyde*, and Beckett's *Endgame* — New short selections from longer works including Eliot's *Middlemarch*, Shelley's *Frankenstein*, Barrett Browning's *Aurora Leigh*, and Tennyson's *In Memoriam A.H.H.* — New bound-book author entries for Dorothy Wordsworth, John Clare, Emily Brontë, Thomas de Quincey, Walter Pater, Isaac Rosenberg, Tomson Highway, Derek Walcott, Jeanette Winterson, and Chimamanda Ngozi Adichie — New selections representing "Literary Currents in Ireland, Scotland, and Wales in the Long Nineteenth Century" — New "Contexts" section on "Gothic Literature" including materials by Horace Walpole, Ann Radcliffe, and Jane Austen — "Literature, Politics, and Cultural Identity" section includes numerous new authors and pieces, including work by Sorely MacLean, James Kelman, Gillian Clarke, Kamau Brathwaite, Kim Moore, and Warsan Shire

Trainees' voices, beliefs and experiences as learners, shaped by the tension and dialogue between internal and external theories of teaching and learning, inevitably penetrate the Initial English Language Teacher Education (IELTE) curriculum. Scrutinising these beliefs and experiences, Initial English Language Teacher Education provides readers with vivid and informed accounts of IELTE from around the world. Approaching IELTE from a sociocultural perspective, the authors analyse future teachers' trajectories and educational histories in order to understand their experiences as learners, unpack internal beliefs, and problematise the relationships between such beliefs with theories and research in the field. Exploring accounts from a number of under-researched contexts, Initial English Language Teacher Education investigates and analyses perspectives from Argentina, Brazil, China, Colombia, Kenya, Singapore, South Africa, Spain and Uruguay. Through the eyes of future teachers, the chapters address issues such as: trainee motivation, tensions between theory and practice, role of feedback, teacher development and identity, critical pedagogies, online teacher education and intercultural awareness.

English in Kenya is a stable post-colonial variety that is used as an inter-ethnic lingua franca in private domains, is the medium of instruction as well as the language spoken in parliament and court rooms. Yet so far no comprehensive research monograph on Kenyan English has been published that surveys its characteristic linguistic features. The present book closes this gap by giving a full description of the characteristic linguistic features of Kenyan English. The book provides an in-depth overview of Kenyan English phonetics, phonology, morphology, syntax, semantics and pragmatics and also gives a meticulous account of the diachronic evolution of this post-colonial variety.

*Decolonising the mind* Broadview Press

The third Canadian edition of this anthology has been substantially revised and updated for a contemporary audience; a selection of classic essays from earlier eras has been retained, but the emphasis is very much on twenty-first-century expository writing. There is also a focus on issues of great importance in twenty-first-century Canada, such as climate change, the Truth and Reconciliation Commission, the Jian Ghomeshi trial, Facebook, police discrimination, trans rights, and postsecondary education in the humanities. Works of different lengths and levels of difficulty are represented, as are narrative, descriptive and persuasive essays—and, new to this edition, lyric essays. For the new edition there are also considerably more short pieces than ever before; a number of op-ed pieces are included, as are pieces from blogs and from online news sources. The representation of academic writing from several disciplines has been increased—and in some cases the anthology also includes news reports presenting the results of academic research to a general audience. Also new to this edition are essays from a wide range of the most celebrated prose writers of the modern era—from Susan Sontag, Eula Biss, and Michel Foucault to Anne Carson and Ta-Nehisi Coates. The anthology also offers increased diversity of representation—including, for example, a larger proportion of First Nations writers and women writers than previous Canadian editions. Unobtrusive explanatory notes appear at the bottom of the page, and each selection is preceded by a headnote that provides students with information regarding the context in which the piece was written. Each reading is also followed by questions for discussion. A unique feature is the inclusion of a set of

additional notes on the anthology's companion website—notes designed to be of particular help to EAL students and/or students who have little familiarity with Canadian culture. The anthology is accompanied by two companion websites. The student website features additional readings and interactive writing exercises (as well as the additional notes). The instructor website provides additional discussion questions and, for a number of the anthology selections, background information that may be of interest.

Studies of the retention of literacy and numeracy by adults who have only obtained primary schooling have given little encouragement to the belief that the cognitive effects of schooling are enduring for many school leavers. How these findings can be reconciled with the claims made for the importance of schooling as an instrument of social and economic change is the subject of investigation in this volume. The cognitive outcomes of literacy acquisition and secular schools in coastal Kenya are the focus of this ethnographic study, which stresses the relevance of an international understanding of the particular problems and dilemmas that face the educational systems of individual countries.

Resources in Education Routledge

This book examines the challenges posed by English, a foreign language, as a language of teaching and learning for community secondary schools in Tanzania in terms of academic performance. The book probes the necessity for having two languages of

instruction in the Tanzanian educational system. While Kiswahili, the native language, is predominantly understood by the majority of people, the discussion in this book indicates that most students in community secondary schools in Tanzania are incompetent in understanding, writing, listening, reading, and speaking English, a language they use in learning and doing their examinations, especially in the early stages of their secondary studies. The incompetence in the above-mentioned skills is mostly caused by their inability to cope with the abrupt transition in the languages of instruction from their pre-primary and primary school study [Kiswahili] to secondary school study [English]. Moreover, most teachers are unable to use the English language as a means to impart knowledge or facilitate learning to their students, leading them to code-switching and code-mixing. This book poses a challenge to countries whose students pass through a transition from one language of instruction to another in their educational systems, helping them to make appropriate decisions in regard to the appropriate language of teaching and learning.
