Right in the middle of Marcy's city block is a littered vacant lot. Then one day she has a wonderful idea that not only improves the useless lot but her entire neighborhood as well. "DiSalvo-Ryan's warm text is enhanced by her soft pencil-and-watercolor illustrations depicting a diverse neighborhood drawn together by a community project."--
Booklist.

If you can't bring the man to the books, bring the books to the man. Mary Lemist Titcomb (1852-1932) was always looking for ways to improve her library. As librarian at the Washington County Free Library in Maryland, Titcomb was concerned that the library was not reaching all the people it could. She was determined that everyone should have access to the library—not just adults and those who lived in town. Realizing its limitations and inability to reach the county's 25,000 rural residents, including farmers and their families, Titcomb set about to change the library system forever with the introduction of book-deposit stations throughout the country, a children's room in the library, and her most revolutionary idea of all—a horse-drawn Book Wagon. Soon book wagons were appearing in other parts of the country, and by 1922, the book wagon idea had received widespread support. The bookmobile was born!

Here is the courageous, groundbreaking story of Rosa Parks and Recy Taylor—a story that reinterprets the history of America's civil rights movement in terms of the sexual violence committed against Black women by white men. "An important step to finally facing the terrible legacies of race and gender in this country." —The Washington Post
Rosa Parks was often described as a sweet and reticent elderly woman whose tired feet caused her to defy segregation on Montgomery's city buses, and whose supposedly solitary, spontaneous act sparked the 1955 bus boycott that gave birth to the civil rights movement. The truth of who Rosa Parks was and what really lay beneath the 1955 boycott is far different from anything previously written. In this groundbreaking and important book, Danielle McGuire writes about the rape in 1944 of a twenty-four-year-old mother and sharecropper, Recy Taylor, who strolled toward home after an evening of singing and praying at the Rock Hill Holiness Church in Abbeville, Alabama. Seven white men, armed with knives and shotguns, ordered the young woman into their green Chevrolet, raped her, and left her for dead. The president of the local NAACP branch office sent his best investigator and organizer—Rosa

Parks—to Abbeville. In taking on this case, Parks launched a movement that exposed a ritualized history of sexual assault against Black women and added fire to the growing call for change.

A delightful new book from Tom Brandon, "2013 Steve Harvey Bus Driver of the Year," reminds us of the wisdom of children and their uncanny ability to teach adults a thing or two. Mr. Brandon's *School Bus*, published by NewSouth Books, collects in one volume the insightful and often humorous conversations children have had while riding on Brandon's big yellow school bus over the years. You know the things your child hears at home that you don't want repeated elsewhere? Tom Brandon says you can count on them to be told with gusto on the way to school. So climb on board and, as "Mr. Mucus" would say, "Sit back and enjoy the ride." Hey, there are some things you just can't make up. Of author Tom Brandon, Larry Lee, Alabama's foremost education blogger, says, "Each school bus is a little magic kingdom where fantasies come alive and the sweet innocence of childhood sometimes meets reality. With the keen eye and ear of a good storyteller, Tom Brandon has chronicled the great adventures of his riders with a talent that makes you see the smile and hear the giggles. Thanks to him for doing so."

TRB Special Report 282: Does the Built Environment Influence Physical Activity? Examining the Evidence reviews the broad trends affecting the relationships among physical activity, health, transportation, and land use; summarizes what is known about these relationships, including the strength and magnitude of any causal connections;

examines implications for policy; and recommends priorities for future research.

Hearings Before the Subcommittee on Public Buildings and Grounds of the Committee on Public Works, House of Representatives ... University of Georgia Press

'Urban Sprawl and Public Health' offers a survey of the impact that the built environment can have on the health of the people who inhabit our cities. The authors go on to suggest ways in which the design of cities could be improved & have a positive impact on the well-being of their citizens.

Georgia Education Journal Vintage

A compassionate, shame-free guide for your darkest days "A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized."—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn't cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to "choose joy" and "pray more." So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you're left wondering if God has abandoned you. You just want a way out. But there's hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental

health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn't look like what you expect.

The Banker-farmer Jossey-Bass

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs.

While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Report Harper Collins

As a result of his visits to classrooms across the nation, Brown has compiled an engaging, thought-provoking collection of classroom vignettes which show the ways in which national, state, and local school politics translate into changed classroom practices. "Captures the breadth, depth, and urgency of education reform".--Bill Clinton.

Report Transportation Research Board
"While Puckett offers a valuable

perspective on schooling in the twentieth-century rural South, she also captures the essence of daily life in the communities in which she taught. We read of how she sometimes boarded with the parents of her pupils; of how teachers, students, and parents joined together in observance of holidays; and of how schooling managed to continue through the busy growing seasons. Personal details of Puckett's life also emerge, from her relationship with her parents to her life at home with her husband and their eight children."
