What really sets the best managers above the rest? It's their power to build a cadre of employees who have great inner work lives—consistently positive emotions; strong motivation; and favorable perceptions of the organization, their work, and their colleagues. The worst managers undermine inner work life, often unwittingly. As Teresa Amabile and Steven Kramer explain in *The Progress Principle*, seemingly mundane workday events can make or break employees' inner work lives. But it's forward momentum in meaningful work—progress—that creates the best inner work lives. Through rigorous analysis of nearly 12,000 diary entries provided by 238 employees in 7 companies, the authors explain how managers can foster progress and enhance inner work life every day. The book shows how to remove obstacles to progress, including meaningless tasks and toxic relationships. It also explains how to activate two forces that enable progress: (1) catalysts—events that directly facilitate project work, such as clear goals and autonomy—and (2) nourishers—interpersonal events that uplift workers, including encouragement and demonstrations of respect and collegiality. Brimming with honest examples from the companies studied, *The Progress Principle* equips aspiring and seasoned leaders alike with the insights they need to maximize their people's performance.

From one of the foremost authorities on education in the United States, former U.S. assistant secretary of education, an incisive, comprehensive look at today's American school system that argues against those who claim it is broken and beyond repair; an impassioned but reasoned call to stop the privatization movement that is draining students and funding from our public schools. She makes clear what is right about U.S. education, how policy makers are failing to address the root causes of educational failure, and how we can fix it.

"Nothing short of a masterpiece." —NPR Books A New York Times Bestseller and a Washington Post Notable Book of the Year In the most ambitious one-volume American history in decades, award-winning historian Jill Lepore offers a magisterial account of the origins and rise of a divided nation. Widely hailed for its "sweeping, sobering account of the American past" (New York Times Book Review), Jill Lepore's one-volume history of America places truth itself—a devotion to facts, proof, and evidence—at the center of the nation's history. The American experiment rests on three ideas—"these truths," Jefferson called them—political equality, natural rights, and the sovereignty of the people. But has the nation, and democracy itself, delivered on that promise? *These Truths* tells this uniquely American story, beginning in 1492, asking whether the course of events over more than five centuries has proven the nation's truths, or belied them. To answer that question, Lepore wrestles with the state of American politics, the legacy of slavery, the persistence of inequality, and the nature of technological change. "A nation born in contradiction... will fight, forever, over the meaning of its history," Lepore writes, but engaging in that struggle by studying the past is part of the work of citizenship. With *These Truths*, Lepore has produced a book that will shape our view of American history for decades to come.

Black Harvard Doctorate in Poetics launches poetry that explores modern blackness. Clint Smith's debut poetry collection, *Counting Descent*, is a coming of age story that seeks to complicate our conception of lineage and tradition. Smith explores the cognitive dissonance that results from belonging to a community that unapologetically celebrates black humanity while living in a world that often renders blackness a caricature of fear. His poems move fluidly across personal and political histories, all the while reflecting on the social construction of our lived experiences. Smith brings the reader on a powerful journey forcing us to reflect on all that we learn growing up, and all that we seek to unlearn moving forward. - Winner, 2017 Black Caucus of the American Library Association Literary Award - Finalist, 2017 NAACP Image Awards - 2017 'One Book One New Orleans' Book Selection

**NATIONAL BESTSELLER** • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.” —Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Hooked*  
**Zero At Thirty** At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.
