Camus reçoit
de plus en

plus de considération de la part des universitaires, cet ouvrage se consacre à la meilleure pièce camusienne, Caligula. Il en propose une analyse structurale, pour en faire ressortir toute la métathéâtralité, et définit les rapports complexes que celle-ci entretient avec la folie et le politique: il cerne ainsi dans leur interaction les motifs qui sont au coeur de l'oeuvre. De plus, il établit des

liens aussi riches que variés avec des textes historiographiques et des oeuvres-phares de la littérature occidentale, qui préfigurent le personnage si puissant qu'est Caligula. En somme, il situe la pièce sur le triple plan d'une tradition philosophique et littéraire qui remonte à l'Antiquité, du renouveau théâtral qui marque le milieu du XXe siècle, et de la production de Camus dans

son ensemble. Il intéressera étudiants et professeurs qui se penchent sur la littérature française du XXe siècle, aussi bien que sur d'autres littératures, puisque par le biais camusien, il traite de la tragédie grecque, de Shakespeare, de Melville, de Pirandello... Il s'adresse plus spécialement à ceux qui étudient le théâtre, que ce soit dans une perspective historique, thématique ou esthétique.

 La porte du ciel est a la fois un livre psychologique , philosophique et un roman initiatique. Dans cet ouvrage, l'auteur nous invite a explorer le monde obscur de la psyche, sans tabou ni a priori. A travers les reflexions et decouvertes d'un jeune psychiatre prenomme Paul dans le recit, l'auteur nous entraine

sur les pas d'un vieil oncle disparu, ayant laisse pour seul heritage un vieux chalet sans age, perdu au milieu des montagnes, mais surtout des notes manuscrites, que Paul decouvrira au debut du recit, et qui le conduiront a franchir la porte du ciel, au terme d'une analyse reflexive a laquelle le lecteur se trouvera associee de par la composition meme de l'ouvrage. A

travers la confrontation originale entre Paul, jeune psychiatre forme a l'ecole scientifique moderne, et un vieil oncle petri de sagesse et de culture ancienne, l'auteur nous invite donc a le suivre sur un chemin de connaissance, largement documente, ou chacun pourra tracer son propre sillon.

produced by
Francis Ponge,
Benjamin

Péret, Henri Michaux and Antonin Artaud, compiled between 1936 and 1946, presents a specific critique of resistance which investigates the possibility for opposition and subversion to take place without direct allusion to the object of resistance. This investigation questions the criteria according to which literature is perceived as being 'resistant' and

suggests that historical and political referentiality may be deemed retaliative and reactionary, thereby risking replication of the dominant order. The relationship between language and power structures is elucidated through allusion to modern theorists Michel de Certeau, Michel Foucault, Ross Chambers and Françoise Proust. The necessary framework for

a study of the poetic voice draws upon aspects of the post-structuralist work of Jacques Derrida and Giles Deleuze, incorporating specific theories expounded by the Surrealist leader, André Breton. The works of the above theorists are foundational to this new critique of poetic discourse which, when applied by Dr Esther Rowlands, to the wartime works of the four named

writers, suggests that language itself may be recognised as a locus of resistance. This book is designed to be of interest both to undergraduates and to researchers studying Surrealism, Second World War-time Literature and Critical Theory.

La conscience définit

l'humanité de l'homme. Mais est-elle elle-même définissable sans ce corps qui la rend possible par ses dispositions propres à l'intelligence et au discernement ? mémoire, le corps humain résiste à toutes les formes d'objectivation ; centre d'action, source de sens et de normes, il tend à se constituer en sujet, par appropriation de ses expériences et de ses conduites. Au-delà des approches dualistes et/ou mécanistes, l'expérience de la conscience de soi sera ainsi rapportée à la formation de l'identité personnelle d'un corps

L'Essai de Locke inaugure la problématique moderne de la conscience en mettant l'aperception de soi en rapport avec la mémoire et la responsabilité. C'est précisément la formation du pouvoir de répondre de soi qui est analysée dans La Généalogie de la morale de Nietzsche. Enfin, dans les Méditations cartésiennes, Husserl montre</p>	<p>comment la notion phénoménologique d'intentionnalité permet, en restituant à la conscience son rapport spécifique au monde, d'éviter de la réduire à un pur spectacle, ou de la dissoudre dans l'activité. From the formation of Maroon societies in the early colonial period, to female mobilisation in authoritarian contexts, via urban youth culture, women or mineworkers in trade unionism, as well as pro- and anti- gay rights activists, the protagonists here all insist upon their rights to protest in a variety of ways. Sometimes</p>	<p>popular protest is expressed through religion, often (and sometimes violently) by young people, exasperated by their long wait for social achievement. Electoral wars and the formation of militias reveal a geography of violence in urban areas, which, in some sectarian excesses, can be displaced to rural areas, as described in the study on Boko Haram. Of interest to scholars and students alike, this collection also contains a complete bibliography of W.C. Smith's publications. <u>Culture et Politique / Culture and Politics</u> BRILL Why do major historical events such as the Holocaust occupy the</p>	<p>forefront of the collective consciousness, while profound moments such as the Armenian genocide, the McCarthy era, and France's role in North Africa stand distantly behind? Is it possible that history "overly remembers" some events at the expense of others? A landmark work in philosophy, Paul Ricoeur's <i>Memory, History, Forgetting</i> examines this reciprocal relationship</p>
--	---	---

between remembering and forgetting, showing how it affects both the perception of historical experience and the production of historical narrative. *Memory, History, Forgetting*, like its title, is divided into three major sections. Ricoeur first takes a phenomenological approach to memory and mnemonical devices. The underlying question here is how a memory of

present can be of something absent, the past. The second section addresses recent work by historians by reopening the question of the nature and truth of historical knowledge. Ricoeur explores whether historians, who can write a history of memory, can truly break with all dependence on memory, including memories that resist representation. The third and

final section is a profound meditation on the necessity of forgetting as a condition for the possibility of remembering, and whether there can be something like happy forgetting in parallel to happy memory. Throughout the book there are careful and close readings of the texts of Aristotle and Plato, of Descartes and Kant, and of Halbwachs and Pierre Nora. A momentous achievement

in the career of one of the most significant philosophers of our age, Memory, History, Forgetting provides the crucial link between Ricoeur's Time and Narrative and Oneself as Another and his recent reflections on ethics and the problems of responsibility and representation . "His success in revealing the internal relations between recalling and forgetting, and how this dynamic

becomes problematic in light of events once present but now past, will inspire academic dialogue and response but also holds great appeal to educated general readers in search of both method for and insight from considering the ethical ramifications of modern events. . . . It is indeed a master work, not only in Ricoeur's own vita but also in contemporary European philosophy."—Library Journal

 This scholarly edition invites us to reconsider our assumptions about the French language, by showcasing the oeuvre of one of the pioneers of diachronic Spoken French corpus linguistics,
 William J.

Ashby, and the ground-breaking findings to come out of his influential Tours corpora (1976 & 1995), including two real-time studies appearing for the first time in English translation. To help readers visualize just how radically different the morphosyntax, morphophonology, and semantics of Spoken French are from French-on-the-page, the editor has developed a glossing

framework, designed to capture the systemic, radically-prefixal morphology of Spoken French and the variability of change-in-progress. The model, presented here and used to gloss the examples from the Tours corpus, is also suitable for corpus-tagging. The volume is organized into sections preceded by an Editor's note and followed by suggestions for further reading, and

closes with an appendix of French corpora. This scholarly edition was written for advanced undergraduates, graduate students, and scholars in the field.
