The Anglo-Saxons placed a great deal of importance on wisdom and learning, something Beowulf makes dramatically clear when he uses his 'wordhord' to command respect and admiration from his friends and foes alike. Modern day scholars no longer have

recourse to the living language and culture of the Anglo-Saxons, and as a result must turn to their 'wordhords' - the literary, historical, and cultural artefacts that have survived in various degrees of intactness - to learn about life in Anglo-Saxon England. This collection of essays, gathered to honour the memory of the noted Anglo-Saxonist Edward B. Irving, Jr., brings together an international group of leading scholars who

take the measure of Anglo-Saxon literary, textual, and lexical studies in the present moment. Ranging from philological and structural studies to ones that explicitly engage a variety of contemporary theoretical issues, they reflect the rich diversity of approaches to be found among Anglo-Saxonists. Subjects addressed include comparative work on Old English and Latin, and on Old English, ancient Greek, and South Slavic, notions of authorship and textual integrity, techniques of editing, heroic poetry, religious verse, lexicography, oral tradition, and material textuality. Offering a fresh reading of some popular pieces and inviting attention to

some less-familiar texts, these previously unpublished essays illustrate the latest state of particular techniques for literary/critical analysis, textual recovery, and lexical studies.

 wrote a substantial
 body of Latin verse in

addition to their better-known English poetry, representing part of the vast and almost unexplored body of Neo-Latin literature which appealed to an international reading public throughout Europe. The Latin poetry of these English poets is of particular interest when it is set against the background of their writings in their own tongue: this collection examines the extent to which our judgment of a poet is altered by an awareness of his Latin works. In some we find prefigured themes which were later treated in their English verse; others wrote Latin poetry throughout their lives and give evidence in their Latin poetry of interests which do not find expression in their

English compositions. This volume is a valuable resource for students of both Latin and English literature. *The Dramatic Index for ...* Univ of California Press

Following up on his acclaimed Redeemer in the Womb, John Saward returns to the mystery of Christ's Incarnation. He draws upon the rich traditions of the Church, as well as the writings of the great Christian mystics, to create a work that is both new and old, revolutionary

and orthodox. This profoundly moving meditation will aid any contemplation on the life of Christ. The subject of this book is the objective and divinely revealed truth of the Nativity of Christ, as proclaimed by His infallible and immaculate Bride. It is the splendor of this truth, of "Love's noon in Nature's night", which for two millennia has captivated the Fathers and Schoolmen, and activated the genius of poets, painters, and musicians. Illustrated with eight color paintings. "Combines Seward's usual profundity and precision with a treasure-trove of texts from the tradition. A comprehensive exposition of the Christmas mystery.

Anyone wanting to know the true meaning of the Incarnation and Christmas need look no further." -Aidan Nichols, O.P., Author, Looking at the Liturgy "A profound theological meditation on the Incarnation as an anticipation of the joy in heaven." -Fr. Kenneth Baker, Editor, Homiletic and Pastoral Review "John Seward is on my very short list of preeminently important twentieth-century Catholic writers. His writing is always profound, original, and clear." - Thomas Howard, Author, On Being Catholic A Copious and Critical English-Latin Dictionary, to which is Added a Dictionary of Proper Names V&R unipress GmbH The study examines

textual representations of women's laughter and smiling and their imagined connection to female virtue in a wide variety of discourses and contexts of the German Middle Ages, including medieval epic, ecclesiastical texts, conduct literature, lyric, and sculpture. By engaging with the competing, and at times contradictory, views of female laughter, it reaffirms a disputatious nature of medieval culture, in which multiple views of femininity, sexuality, and virtue stood in a conflicting, yet productive, dialogue with one another. The society that emerges when one looks at medieval German texts is always ambivalent: it thrives on and enjoys talking about

sensuality and eroticism, while being constrained by the conventions of polite behavior and the fear of sin; it relies on the ritual use of laughter, while marking it as a sign of lust and perdition. Women's laughter thus offers an important way into understanding medieval views of gender because it combines physicality with shifting and conflicting cultural norms.

The Displacement of the Body in Ælfric's Virgin Martyr Lives addresses 10th-century Old English hagiographical translations, from Latin source material, by the abbot and grammarian Ælfric. The vitae of Agnes, Agatha, Lucy, and Eugenia, and the married saints Daria,

Basilissa, and Cecilia, included in Ælfric's Old English Lives of Saints, recount the lives, persecution, and martyrdom of young women who renounce sex and, in the first four stories, marriage, to devote their lives to Christian service. They purport to be about the primacy of virginity and the role of the body in attaining sanctity. However, a comparison of the Latin sources with Ælfric's versions suggests that his translation style, characterized by simplifying the most important meanings of the text, omits certain words or entire episodes that foreground suppressed female sexuality as key to sainthood. The Old English Lives de-emphasize the physical nature of faith and

highlight the importance of spiritual purity. In this volume, Alison Gulley explores how the context of the Benedictine Reform in late Anglo-Saxon England and Ælfric's commitment to writing for a lay audience resulted in a set of stories depicting a spirituality distinct from physical intactness.

In spite of their widely disparate uses, Marian prayers and courtly love songs from the Middle Ages and Renaissance often show a stylistic similarity. This book examines the convergence of these two styles in polyphonic music and its broader poetic, artistic, and devotional context from c.1200-c.1500.
