Organic Marijuana, Soma Style Sourcebooks, Inc. The Low-Tech, No-Grow-Lights Approach to Abundant Harvest Year-Round Indoor Salad Gardening offers good news: with nothing more than a cupboard and a windowsill, you can grow all the fresh salad greens

you need for the winter months (or throughout the entire year) with no lights, no pumps, and no greenhouse. Longtime gardener Peter Burke was tired of the growing season ending with the first frost, but due to his busy work schedule and family life, didn't have the time or interest in high-input grow lights or greenhouses. Most techniques for growing what are commonly referred to as "microgreens" left him feeling overwhelmed and uninterested. There had to be a simpler way to grow greens for his family indoors. After some research and diligent experimenting, Burke discovered he was right—there was a way! And it was even easier than he ever could have hoped, and the greens more nutrient packed. He didn't even need a south-facing window, and he already had most of the needed supplies just sitting in his pantry. The result: healthy, homegrown salad greens at a fraction of the cost of buying them at the market. The secret: start them in the dark. Growing "Soil Sprouts"—Burke's own descriptive term for sprouted seeds grown in soil as opposed to in

jars—employs a method that encourages a long stem without expansive roots, and provides delicious salad greens in just seven to ten days, way earlier than any other method, with much less work. Indeed, of all the ways to grow immature greens, this is the easiest and most productive technique. Forget about grow lights and heat lamps! This book is a revolutionary and inviting guide for both first-time and experienced gardeners in rural or urban environments. All you need is a windowsill or two. In fact, Burke has grown up to six pounds of greens per day using just the windowsills in his kitchen! *Year-Round Indoor Salad Gardening* offers detailed step-by-step instructions to mastering this method (hint: it's impossible not to succeed, it's so easy!), tools and accessories to have on hand, seeds and greens varieties, soil and compost, trays and planters, shelving, harvest and storage, recipes, scaling up to serve local markets, and much more. *Growing Weed in the Garden* Red Wheel/Weiser This revised and updated edition of the classic *Cultivators Handbook of Marijuana* had complete

information on growing marijuana indoors and out. Full of examples, fantastic illustrations and horticultural knowledge. Drake is a leading authority on marijuana cultivation. His book *Cultivators Handbook of Marijuana* includes information on the marijuana plant, marijuana and land, working with young plants, marijuana and light, harvesting and curing, making a good plant better, cultivation of psychoactive tobacco, and cultivation awareness.
